

ACCESSIBILITY STATEMENT

CONFEZIONI LAVIS SRL is committed to making its website accessible, in accordance with the Italian Law of January 9, 2004, No. 4, the WCAG 2.1 guidelines, and the principles of digital inclusiveness. This statement applies to the website lavisconfezioni.it.

Compliance Status The website is partially compliant with the accessibility requirements established by international standards, due to the non-compliance listed below.

Non-accessible Content The following content is temporarily not accessible for the reasons indicated:

1. **Non-text Content (WCAG 1.1.1):** Within the portfolio pages (“Collections”), some images do not include an alternative text attribute (alt) or a title tag, preventing screen readers from correctly describing the images to blind or visually impaired users.

Note on the Accessibility Tool: The website uses a dedicated accessibility widget that allows customization of contrast, text size, and guided navigation. We acknowledge that widgets provide complementary support and do not replace proper structural code optimization, which we are actively working on.

Date of the Statement and Evaluation Method This statement was drafted on September 25, 2026. The evaluation was carried out through a self-assessment conducted directly by the private entity, supported by automated analysis tools (wave.webaim.org) and manual navigation checks.

Feedback Mechanism and Contact Information If you encounter accessibility barriers or anomalies, you may report them to our technical support to help us improve by sending an email to: amministrazione@lavisconfezioni.it

Enforcement Procedure In case of an unsatisfactory response or no response within thirty days from the report or request, the individual may submit a notification to AgID (Agency for Digital Italy) through the procedure indicated on the institution’s official website, addressed to the Digital Ombudsman.

Information on the Organization

1. Number of employees with disabilities within the organization: **2**
2. Number of workstations available for employees with disabilities: **0**
